**Heating:** Webasto Warm Air

### A SPACIOUS RIVER CRUISER

The Company normally acts as broker for the vendors who unless otherwise stated is not selling in the course of a business. Whilst every care has been taken in the preparation of these particulars the correctness is not guaranteed and they are intended as a guide only and do not constitute a part of any contract. A prospective buyer is strongly advised to check these particulars and at his own expense to employ a qualified marine surveyor to carry out a survey and / or to have an engine trial conducted by us shall not imply any liability on our part.

**Accommodation:** Swansong was commissioned in 2012. However, her hull is a 2001 moulding and as such listed as a circa 2001 boat. She benefits from being CE marked which was carried out in 2015 and provides a secondary 2015 HIN.

These boats were designed by John Bennet and based on the Sheerline 1050 hull. She is a well thought out river cruiser making the most of all available space.

Access is very easy as she benefits from stern steps leading into the large command bridge with ample seating. The helm benefits from the twin seat configuration and the backrest moves so that you can sit looking Fwd or Aft.

The helm is Stb side and is clear and uncluttered.

There is aft seating which is large enough for up to 4 adults.

The port side door provides access to the saloon.

This is a lovely bright space thanks to the large windows. They are also protected with the screen and window covers.

As you step down, on the port there is a sofa/chaise Lounge which pulls forward to provide access to the drink's cabinet. There is also additional storage at the side of the steps along with the heating controls, stereo, and VHF radio.

Opposite is the family 'U' shaped sofa with storage beneath.

Engine access under the saloon floor.

Moving aft, you step down into the master Aft cabin.

This is a great space benefitting from an island bed with all good round access.

The aft hatch makes for a nice feature too and allows plenty of natural light in.

There's hanging and surface space on the Stb side along with a dressing table and storage on the port side.

The En-Suite is port side and equipped with an electric toilet to holding tank, hand basin, shower, mirror, surface space and storage too.

Moving back through Swansong, through the saloon and step down into the galley.

The galley is Stb side and equipped with a full-size Caprice 2040 4 ring cooker with grill and oven, Waeco Coolmatic fridge, Stainless steel sink with mixer tap and hardened glass cover, Wine rack, ample storage, work surface and opening port hole.

Opposite is the family port side family shower/toilet compartment.

This is fitted with an electric sea toilet to a holding tank, Shower, hand basin, surface space, storage and opening port hole.

Fwd again takes you to the guest cabin. This has a 'V' berth with storage beneath. There is a port side wardrobe and reading lights over each berth.

Swansong would make an ideal family boat fit for those extended cruises.

#### **OWNERS COMMENTS**
