**Heating:** N/A

## A NICE EXAMPLE OF THE POPULAR PRINCESS 32. AN IDEAL FIRST BOAT

The Company normally acts as broker for the vendors who unless otherwise stated is not selling in the course of a business. Whilst every care has been taken in the preparation of these particulars the correctness is not guaranteed and they are intended as a guide only and do not constitute a part of any contract. A prospective buyer is strongly advised to check these particulars and at his own expense to employ a qualified marine surveyor to carry out a survey and / or to have an engine trial conducted by us shall not imply any liability on our part.

**Accommodation:** Access to MY Princess is via over side from either side of the vessel into the large cockpit.

Aft is a full width bench seat which pulls out to provide access to the engine bay beneath. The helm is mid ship port side. Opposite is the navigator's seat with the fridge under it. There is also a central lazarette. This provides access to the fuel tank which looks to be a relatively new tank.

There's a central door leading down into the saloon.

Port side is the shower and toilet compartment, fitted with a hand basin with an over basin shower, storage and sea toilet.

Opposite is the galley. This is equipped with a round stainless-steel sink and drainer, hot and cold mixer tap (Hot water from calorifier and immersion), Flavel 'Vanesse' LPG two ring hob, grill and oven and storage.

This leads onto the sofa/single berth. There is storage above and below the seating.

Opposite is the large dinette. This converts to a double berth with reading lights either side. Again, there is storage above and below the seating.

Fwd is the private cabin. This is fitted with a Vee berth with two small wardrobes and storage beneath the berths.

MY Princess is fitted with warm air heating, allowing you to enjoy her all year round.

MY Princess is a nice boat for its age and would make a great first boat.

#### Owners Comments:

Stern drives services 2020  
Interim engine service 2021  
Throttle cables changed 2021  
Anti-fouled 2021
